# About Us

## History

Istanbul International Training Center (IITC) was established in 2012 with more than fifteen years of experience in training and consulting.

IITC committed itself to provide well designed training courses in business, finance, strategic management and human resources development. In addition to that, IITC is offering multiple courses in technical fields such as Engineering, Computer Sciences, Maintenance, Oil and gas.

## Our Vision

To be one of the top preferred destinations for those who are looking for professional training at local and regional levels.

## Our Mission

To offer training courses and consulting services which can develop the administrative, leadership and technical skills for employees in private and government sectors and raising the level of their performance and efficiency.

# Services

## Public Courses

IITC launches an annual training plan prepared to meet all the training needs of our clients, taking into consideration the durable changes in the labor market and the new knowledges and technical skills they need.

Public training courses are available to employees from any organization, they are run regularly and provide effective training allowing participants to network with peers from different industries.

The courses are led by expert tutors who are skilled in both their subject matter and in the most effective ways for delegates to learn.

# Services

## Customized Courses

Customized training provides top quality continuing education for individuals and organizations to help employers stay competitive and to help workers meet recertification requirements and gain new skills.

If trainees or companies did not find required training course listed in our annual training plan then we can provide customized training that is individually tailored to your company's needs. Together, we determine the content and format in line with your needs and define the organizational framework according to your requirements.

# Services

## In-House Training

IITC provides in-house courses, delivered by its faculty at your facility. Though in-house training, the host organization has the option of tailoring the training program to their particular operational needs. In-house training allows hosts to fulfill their organization's objectives for staff development in a cost effective and quality driven manner.

One of the major benefits on in-house training is the flexibility it offers, designing company's training program will depend on multiple factors such as organizational size, number of trainees, number of trainers, facilities available, and the desired outcomes of the training.

# Services

## Conferences & Events Organization

IITC is providing conferences, workshops, seminars, and symposia organization services for any company looking to organize its events in Turkey or in Malaysia. IITC has the experience, expertise and enthusiasm to effectively manage any conference from planning and site selection, to onsite logistics and post-conference evaluation, we deliver the conference management services that will ensure your conference is memorable, logistically well-oiled and meets or exceeds expectations.

Our specialists will provide guidance and support for your organization to save your time and resources and to allow you focusing on your event.

## Services

### On-Site Visits

IITC is designing on-site visits in Turkey for trainees and learners in different career tracks, it might be a part of the accompanying training program which aims to help demystify the process of career transition by exposing trainees to different work environments, and enabling them to learn about career transitions directly from company employees.

If any trainee or any organization from abroad willing to have an on-site visit to any factory, company or any destination in Turkey, they should ask for that at least one month before the date of the site visit because they are subject to the host's policy, conditions and also according to their time and capabilities.

# Services

## Youth Leadership Programs

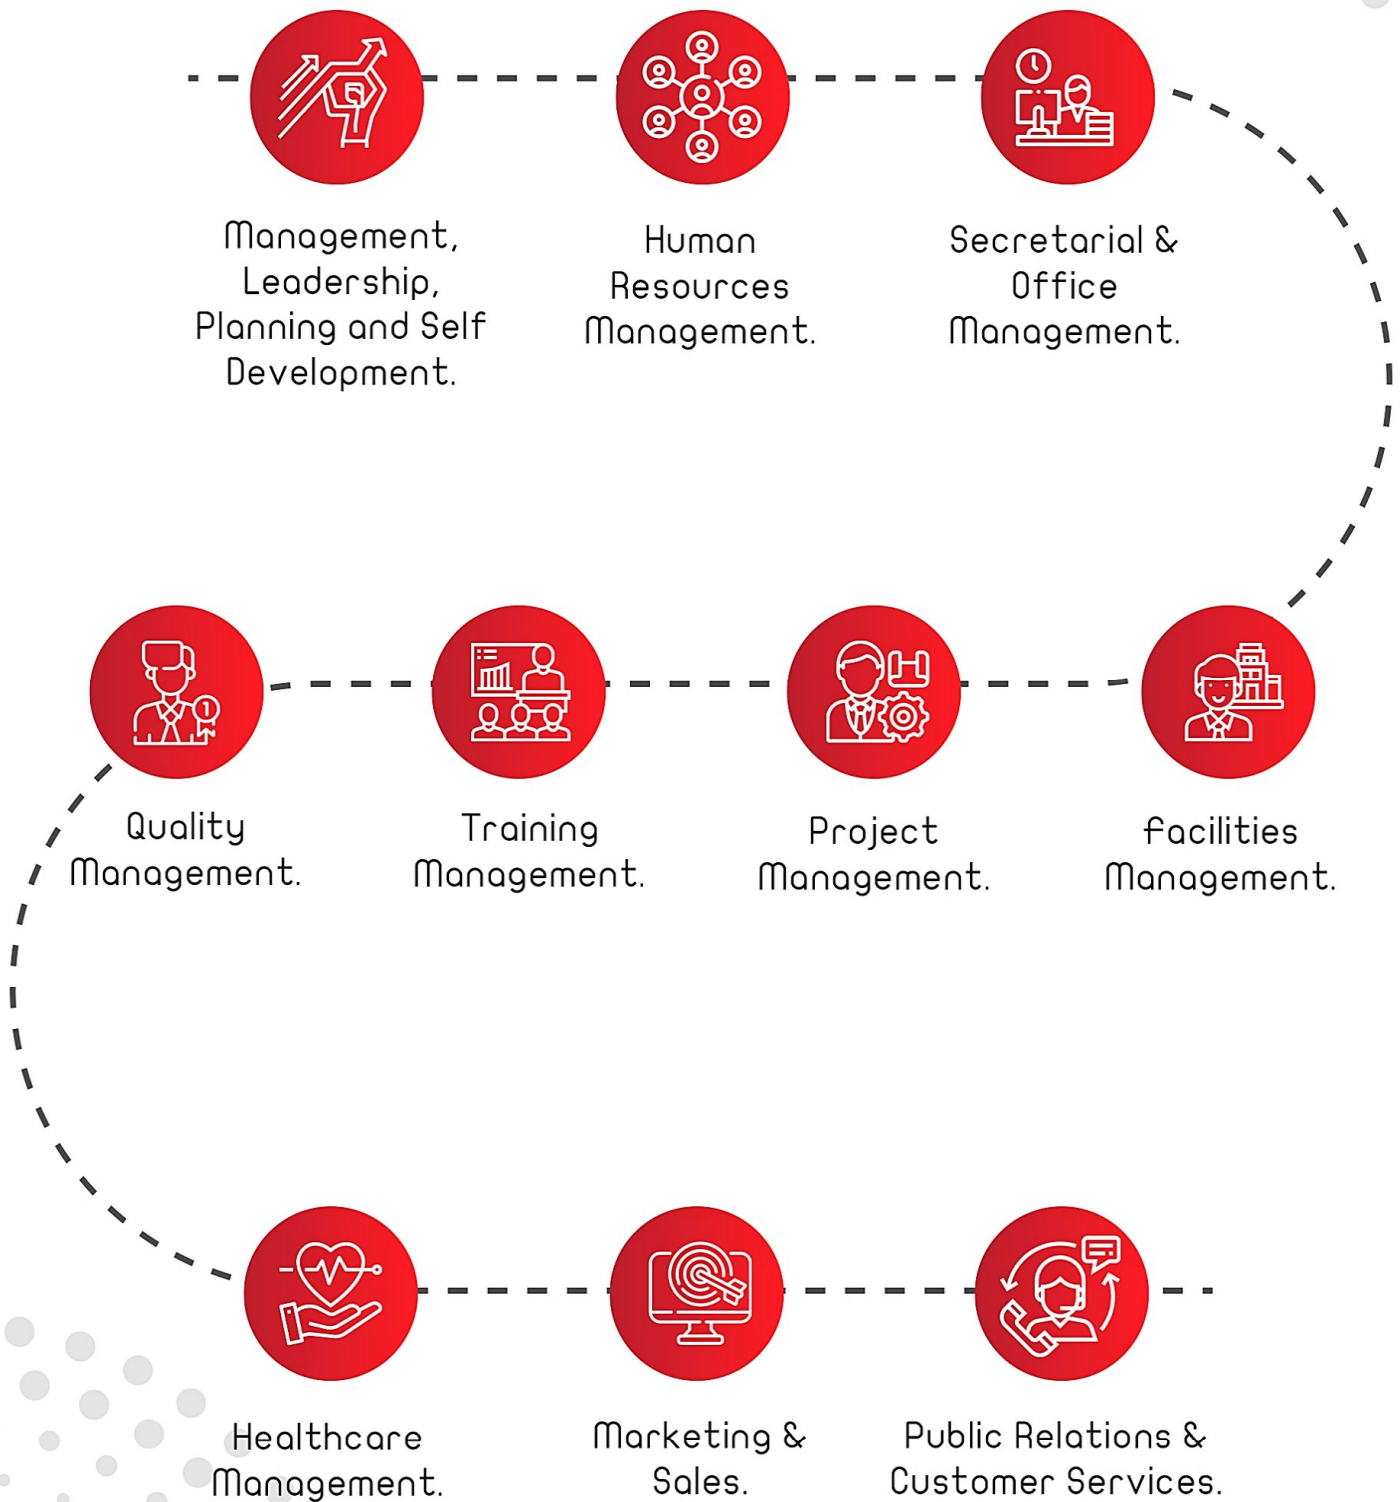

IITC launches Youth Leadership Programs (YLP) that aim to build the personality of young people by developing their leadership and cognitive skills. These programs target the age group of 18-22 years.

Youth leadership programs focus on youth developing the ability to analyze his or her own strengths and weaknesses, set personal and vocational goals, and have the self-esteem, confidence, motivation, and abilities to carry them out (including the ability to establish support networks in order to fully participate in community life and effect positive social change) and the ability to guide or direct others on a course of action, influence the opinions and behaviors of others and serve as a role model.
